

LITERACY

AMBITION

This is a social transmission,
To discuss your personal ambition,
You don't need to be a world-class logician,
To use your full mental cognition.

Life's not an audition,
Set your goals high and others will listen:
Whether small like a lower carbon emission,
Or great like an expert physician,
Maybe a sports star, or world-class musician.

Set yourself the ultimate mission:
Whatever your dreams,
As hard as they seem,
Show the world you WILL reach your ambition!
